

Week 12:
Response Paper

Eric Altenburg
HST 415: The Nuclear Era
November 20, 2020

1 For your response paper, just write up any reflections, thought, questions, etc. that came to mind while watching the lecture and reading the above paper!

(1) Questions

- Was the TRIGA reactor a part of the NPT treaty?
- Does the pool water ever get emptied in the BWR?
- Why do the cool down towers have that iconic shape of being "slim in the middle but wider at the top and bottom"?
- Was there a similar anti-nuclear movement in Russia following Chernobyl or was it squashed by the Russian Government since it kind of downplays their nuclear capabilities?

(2) Other stuff about how I feel about stuff
